Many persons suffer severely by sore or weak eyes. The reflection of the sun on the snow almost blinds them, their eyes water when they are exposed to a slight wind, or have to travel or ride in the open air, a strong light blinds them, they suffer a smarting, burning sensation, as if dust was thrown in the eye, they are unable to read or write by gas or lamp light. DR. HOBENSACK'S
Worm Syrup and Liver Pills.

PROBABLY one reason why Worm Medicines so frequently fail of any *good effect*, is the fact that they contain no qualities except as *Worm Killers* Consequently in many instances where we mistake the symptoms of disease and doctor for worms, when the cause of disease is not worms, but a *derangement of the system and consequent debility and ill health no good results follows*, whereas in the use of *Dr. Hobensack's medicines*, it *being an active remedial agent*, as well as *worm killer*, the patient immediately gets well, though no worms are brought away.

Thus it will be readily seen that it possesses *many advantages over* other worm medicines, as it is not only sure to kill and bring away the worms, but builds up and restores the patient to general health, besides.

MALIGNANT PUSTULE.—The occurrence of three deaths in this city, within the last month, has caused considerable [illegible] alarm. It is called a "new and strange" disease, and hundreds of persons have imagined an ordinary pimple to be a sure indication of danger. In this case, as well as in many others similar, ignorance of the true character of the disease has served to increase the alarm of the public mind.

Malignant pustule is in no sense a new disease. Cases of it have been frequently reported and described in the medical journals in all parts of the country, and the medical works in the office of every physician contain full descriptions of it.

Hon. Robert Rantoul Jr. died from malignant pustule, in Washington, D. C., August 7, 1852. One death in this city is in the same cause is reported in the City Registrar's report for 1855, and one or two more have occurred since that time.

Still the disease is so rare here that probably many of our physicians have never seen a case. We are compelled to believe that the occurrence of three cases in a single month is entirely an accidental event, which probably will not happen again in a lifetime. There is tenfold more danger that any person in this city will lose his life during the next month, in passing through the streets, than that he will die from malignant pustule.

Perhaps a brief description of the disease may serve to prevent [illegible] unnecessary alarm. The pustule, unless it arises from a wound, is generally on the under lip. It commences with a slight pimple, and with considerable itching. Very soon a thin, bloody fluid is formed in the pimple, and it is surrounded with a livid or purple areola, or ring. It also rests upon a hard base which may be felt as a small lump under the skin, but has very little if any pain. Unless arrested early, the swelling rapidly increases, the virus, just as formed, and being absorbed, passes into the blood and poisons the whole system.

An ordinary pimple differs from the pustule in that it is full of pus or matter—it is of a bright red color,—it has no thin bloody fluid in the centre, and it has not the same hard lump under the skin.

A few words in relation to the causes of malignant pustule. It is generally caused by the contact of some poisonous animal fluid or matter. Hence the disease is most frequently seen among tanners, butchers, veterinarians, and those who have the care of diseased animals. Some cases are reported among workers engaged in unloading hides from vessels. Several cases are reported from carrying animals which had died of disease. Persons employed in removing and disposing of the dead bodies of animals [illegible] are frequently subjects of the disease.

Malignant pustule is also supposed to be sometimes caused by eating the flesh of animals that were diseased [illegible] particularly of animals affected with carbuncle.

It is also the general opinion that malignant pustule sometimes arises spontaneously, without any contact of poisonous animal matter, or eating of diseased animals. In [illegible] certain that cases do occur, [illegible] this city, where there is no evidence probability, so far as can be known, [illegible] with poisonous animal matter.

From the fact that the disease never occurs as an epidemic, and [illegible] tary cases, we are [illegible] that some direct inoculation or poison [illegible] necessary to the production of malignant pustule.

The occurrence of three cases [illegible] gives no more cause for alarm than would the occurrence of three deaths from any other accident, in the same time.

CONGREGATIONAL SINGING.—We take the following remarks from an introduction written by *Henry Ward Beecher*, to a new volume of "Revival Hymns," issued last [illegible]

The singing of all the people [illegible] once was their Christian [illegible] The Reformation wrested from the [illegible] the element of public worship and gave it back to the people as a recreated [illegible] hymns enough and singing enough, and the Christian laity will make [illegible] ethical defection against [illegible] aberration and against spiritual [illegible] for a hymn carries the experience [illegible] their common tary, the experience [illegible] the soul in Christ is, the world [illegible] in hymns, where the profoundest [illegible] the most touching sorrows, must be learned [illegible] The most [illegible] of Scripture have been [illegible] in hymns [illegible] biblical [illegible] Texts are seed planted in the [illegible] of human hearts, [illegible] they bear, when they grow [illegible] real meaning. Thus it is that [illegible] rich experiences [illegible] the record of the most memorable [illegible] hidden experiences, is contained [illegible] hymns— The two books the Bible and [illegible] Bunyan carry more of [illegible] them than all the rest of the [illegible] globe

With familiar hymns, uttered [illegible] odies, all men [illegible] himself able to speak eloquently. A [illegible] ies the stammering tongue to [illegible] and most equable utterance [illegible] only the sweetest discoursing [illegible] only natural method by which [illegible] may speak together and give to [illegible] truth the impulse of a thousand hearts. There is no testimony ever publicly uttered to God's faithfulness, to Christ's helpfulness, to the Spirit's illumination, to the joyousness and peace of a Christian life, to the [illegible] and foresight of heaven, that can be compared for fullness, for solemnity and for grandeur to that which a congregation make in the singing of psalms and hymns; and a church without singing is like a dwelling without the light.

When the church begins to lift up her voice, and preach through music then we may hope for the latter day glory.

A house of ill fame was burnt at Cincinnati at 4 o'clock on the morning of the 25th ult, and Josephene Ellison, one of its inmates, perished in the flames. She was only eighteen years of age. It is stated in the papers of that city, that she was an intelligent girl of good family, and had been but a short time in her degraded condition, and had spoken for a coach to take her home to her friends in the morning, repentant and determined to reform. The coach came for her and found the building in ruins.

EDITOR BRAND vs. DR HALL ON HOW TO GO TO BED. from the cornfield and pull off his stockings. Beard of the Nashua Telegraph thinks "this is about the most cowardly way of going to bed that we ever heard tell of." Our advice is—don't hang round the fire, whistling and singing and quacking and quivering, but go to your cold room, with your clothes all on, "all standing" as the sailors say—if there is a pane or two of glass broken out, so much the better—go to work with moderate haste—disrobe yourself, stockings and all—putting every garment just where you can lay your hand on it in the dark—pop into bed—straighten right down—draw the clothes up round your neck, but don't cover up your precious nose—and if you don't sleep warmer and

Impending Destruction.

The Bangor Union has information from Augusta (editorial, it is supposed,) that a dreadful catastrophe is about to happen—no less than an awful storm in which the Republican majority of the Legislature is to be overwhelmed like the inhabitants of Sodom and Gomorrah "The elements are at work," we understand,—and "the lightning is about to strike, but the destined victims of the bolt "do not know from what quarter it is to come, "or where they shall find shelter at its approach." This is dreadful! An entire Legislature, as it were, going on calmly and unsuspectingly in its course, with death and destruction hovering over it! Could not the Union man have given earlier warning of this awful storm, so that some could escape! If so, may he not legally be held to answer for the wholesale destruction which he says is now inevitable! We think he should be held. Meantime, we trust the Republican members will improve their short remaining time in making a proper disposition of their effects—including stationery. And as some of the democrats may likewise be in danger from this storm, (which is to come, we take it, from the irresistable but yet concealed strength of the administration legions) we suggest that *their* plunder be sent out of town before the Buchanan army arrives. It would be much safer.

This predicted storm seems to be enough for the destruction of the poor Republicans—but as we read further, we have another terrible revelation. Not only is the Republican edifice to be assailed with tempests, with lightning and with hail,—but a "grand sapping and mining process is going on," which, after the building is destroyed by the storm, is intended, we suppose, to blow up the ruins

And as if this were not enough, we are next thrilled with the announcement, that "no sooner as our opponents are fairly upon *them*, the light and indefensible battery of *squatter* sovereignty (so now worked by Senator, Sewall & Co.) will be instantly withdrawn"—when lo and behold! "will be exposed to their astonished gaze the heavy and irresistable ordnance of Popular Sovereignty!—one discharge from which will drive them into an "old-fashioned abolition minority." This irresistable ordnance is to be under the command, we suppose, of Capt Gen. Sweet, of the Bangor Custom House.

Truly an awful array of horrors surrounds the Republican majority. We have one hopeful suggestion to make, however. It will be remembered, that our late Adjutant General, in his immortal report, spoke of a brave officer who, on a memorable occasion "stowed fire enough in one eye to melt down a six-pounder at a glance" Now this officer is a well-known and staunch Republican—and we therefore suggest that when this threatened array of Custom House artillery (under Capt. Pen. Sweet) is brought up against the State House and the Republican majority, Capt. J. D. Sweet of the Brewer Artillery be employed to take two severe glances with *both* eyes—and see what will be the result. When Sweet meets Sweet, we have an idea that *them* will come the tug of war.

THINGS AT WASHINGTON. *The Appleton Bill—The Loan—The Tariff—The Democratic Party.* From the recent Washington correspondence the impression seems to be that the French Claims bill is lost this session, by the reference to the Committee of the Whole The Senate bill, however, is on the Speaker's table, and its friends think it can yet be brought forward with a prospect of success

It is not probable, (says the Tribune) that any new loan can be got through the House. The Republicans and the Tariff Democrats are said to agree on this, even if the session should end without passing the leading Appropriation Bills.

The call for the Democratic caucus of Wednesday evening was intended to embrace only those opposed to Specific Duties and to Protection. The President and the Pennsylvania Democratic delegation would be excluded by such a caucus from their own party. The call was a direct insult to the President, and shows how rapidly the Democratic party is breaking up. The Southern Democrats insist that no one is entitled to be called a Democrat who is not opposed to Specific Duties and Protection. The assertion in the Douglas organ last week, that there is no longer a Democratic party, is being strikingly verified.

MATRIMONIAL INFLUENCE. The biography of almost any person, faithfully written, would ascribe to a mother's influence the moulding not only of youthful character, but the more matured forms of mental and moral development in after life. Indeed, a vast majority of our greatest and best men have treased to the early counsels of maternal affection much of the good influence and right action which gave characterized their after course. Nor has this been confined to the more elevated or well-educated classes in society—but the humblest abode of honest poverty has often sent forth, from maternal lips, the soundest of life's lessons, and the most abiding and most blessed of its influences.

When daily toil or absence, chilling indifference, to domestic duties, or beastly intemperation even, have dried up all the springs of a *father's* love—rendering his influence negatively of no good account, but positively of evil and often of atrocious example—the mother disciplined and broken-hearted though she may be as a *wife*, still as a *mother* has often proved herself, under Heaven, the guardian angel of an otherwise abandoned and dissolute household.

The influence thus shed is often the almost hopeless "casting of the bread upon the waters." It is often not found; in any of its favorable developments, until "after many," very many "days." The cares of the world, and the evil examples of it—the bustling and bee eging sins of individuals, and of communities—the counteracting example, perhaps, of a *father's* life and conversation—often choke the word of a faithful *mother*, and destroy its vitality. But not unfrequently it will be found, like seed long buried in the earth, to spring up to remembrance in after life—and the counsels imparted to the "infant o days" be found to influence and perhaps control the whole destiny of the man of years and of gray hairs.

PATENT OFFICE STATISTICS. A table of the operations of the Patent Office, to Dec. 31, 1858, is published. From it we learn that 5364 applications for patents were made last year; 3719 patents, including renewals, were granted. Of these 3248 were issued to citizens of the United States, 20 to subjects of Great Britain, 14 to subjects of the French empire, eight to subjects of other foreign governments. 561 were for improvements in agricultural implements and processes, 164 for improvements in the steam engine, 195 for improvements in railroad cars, 115 for improvements in the sewing machine The first patent for the latter was issued in 842; since then, 235 patents for improvements have been issued.

THE NEW SENATORS. The terms of twenty-one United States Senators expire on the 4th of March next. The new Senators have already been chosen in nine teen States, leaving New Jersey and Minnesota still to elect. It is most probable that opposition men will be chosen in both these States, as the Legislature of each is anti-Administration. Assuming this result, then, the politics of the old and new Senators will stand as follows:

	Old Senators.	New.
Democrats	24	13
Republicans	20	6
Whigs and Americans	5	

We reckon Senator Douglas with the regular Democrats. Every Northern Senator who voted for Lecompton has been succeeded by a Republican.

COST OF REMOVING SNOW AND ICE FROM RAILROADS. By the annual returns of the railroads of Massachusetts, it appears that the expense incurred by the different companies in keeping their tracks clear from snow and ice, during the last five years, was as follows: In 1854, $19,036; in 1855, $6835; in 1856, $75,428; in 1857, $58,23.; in 1858, $10,114. Total cost in five years, $169 645 Horse railroads are not included in the above estimate. *Exchange.*

At least one half of the above sum would have been saved to the companies mentioned above, if they had only been in possession of the new patent flange cleaner, which is now coming into use. Conductor Putnam, we believe, is owner of the patent.

The Cincinnati Inquirer tells of a widow of 43 taking a boy of 19 before a Justice and marrying him, because, as she said, Joseph would be useful in going to market.

PLEASE LET ME BE A LITTLE BOY "Oh Johnny," cried a nervous mother, "do have pity on my poor head! Can't you play without shouting so?"

Poor Johnny drew up the tape reins with which he was driving two chairs tandem, and called out in a whisper, "Get up, whoa!"

At length finding but little pleasure in this suppressed amusement, he threw down the reins, and laying his hand on his breast, and with a long breath, "O, mother! it's full of noise in here, and it hurts me to keep it in! Don't all little boys make a noise when they play?"

"Yes, Johnny, I believe they all do," replied the mother.

"O, then, mother dear," cried Johnny, in a wheezing tone, "please let me be a little boy!"

DID YOU EVER HEAR OF AN OLD FOX THAT BIT HIS OWN TAIL OFF! Not many days since we were reading some narrative of an exploring expedition, in which the author described the mode of hunting wild animals, and among others, foxes. A gun is set, a string attached to the trigger, carried over a pulley or post in rear of the gun, and then carried along the barrel in front of the muzzle; to the string is attached the bait, and the fox is expected to seize the tempting morsel, pull the trigger, discharge the gun and shoot himself. But he don't always do it; the cunning rascal burrows in the snow below the range of shot, then seizes the bait, and away goes the charge over his head.—*Brunswick Telegraph.*

A member of an engine company, in Haverhill, Mass., having just got married, the "boys" got out their "tub," placed it in front of his chamber, after the people had retired for the night, and began to "break down" with such force that a pane of glass was broken, and the bath thoroughly drenched with the freezing fluid. Rather a cool joke.

LOCAL AND MAINE NEWS.

Division of Frankfort.

Messrs. Wheeler & Lynde:

Please give place in your columns to the following statement of facts relative to the proposed division of Frankfort:

The Article in the warrant for the meeting of said town, holden on the 27th of January, was "to see what action shall be taken in regard to the division of said town." 276 persons voted for Moderator, 468 persons voted on the question, and the majority against the division was 100. The meeting then unanimously voted to instruct Hon. T. Cushing, their Representative in the Legislature, to exert his utmost influence and give his vote against the division of the town. A committee of six were also chosen to appear before the committee of the Legislature on the division of towns, and remonstrate against the division.

Another meeting of said town was holden on the 3d of February, the Articles in the warrant for which was "to see what action the town will take in regard to the petition of Jonathan Treat for rescinding the charter of a bridge across the North Branch of Marsh Stream;" 94 persons voted for Moderator, and those same voted to instruct Hon. T. Cushing to vote in favor of the division of said town, and raised a committee of seven to proceed to Augusta and oppose the rescinding of the charter of said bridge.

On the 26th of January, a letter was forwarded to Hon. T. Cushing at Augusta, by said petitioners, of which the following is a true copy.

Jere. Penno et al vs. Rufus Dwinel. Action for putting gas pipes, &c., in deft.'s mills at Oldtown. Referred, and award of Referees in favor of Piff offered for acceptance.—Deft. objected to the acceptance, because Referees, after the hearing was closed, went to Oldtown, to make certain examinations, and that one of the Piffs accompanied them, without notice to deft. or his counsel. Referees stated that they were not influenced by Piff's acts or words on this occasion The Court accepted the report, but considered the course of the Referees and the Piff. in the particulars complained of very reprehensible. SONS OF TEMPERANCE. New divisions have recently been organized at Wilton, Farmington, Strong, Phillips, New Sharon, and other places in that section.

Ship Rebecca, of Brunswick, recently lost on Anguilla was owned by Capts C. and T. Skolfield, Capt. Jos. Badger, Robert Bowker, and others, and was insured in the Brunswick Office for $7,000, in the Bath Office for $5,000, and Maine Office, Bath, for $2,000. So says the Brunswick Telegraph.

The firemen of Portland are in the habit of taking out their engines to flood the "Basin," in order to afford a skating field for the ladies and their attendants. A cotemporary thinks it quite likely that the gallant will see that the engine men are rewarded.

The 1st Congregational Society in Danville, (late Rev. Mr. Drummond's) are moving for the erection of a new and commodious church—the present one not being adequate to their wants. A subscription of $10,000 is wanted, $8,000 of which has already been subscribed.

SUCCESSFUL HUNTERS. The Bethel Courier says that five gentlemen of that place captured nine deer, in one day last week, on the Wild River. Thirty or more of these animals have been taken near the mouth of that river within a fortnight.

The taxable property of the city of Calais, for the year 1858, was $1,180,616. The whole debt at that date aside from the loan, was $13,000. The personal and real estate of the city is usually assessed at two thirds of its value The market value accordingly would be about two millions of dollars.—*Calais Adv*

CHILD BURNED TO DEATH. We understand a child belonging to Mr. Benjamin Moore of Oak Bay, was so badly burnt by its clothes taking fire on Saturday last, that it died the next day.—*Calais Advertiser.*

DISASTERS, &c.—Ship Geo. F. Patten, (of Bath) Mitchell, from Bristol, E Nov. 8, for New York, put into Bermuda 28th ult., with loss of fore and main masts and bowsprit, which were carried away by a sea. No further particulars.

Brig Minana, Perkis, from Havana for Portland, which put into Bermuda with loss of sails, &c, as before reported, has been condemned and sold.

Barque Rebecca, of Brunswick, before reported lost on Anguilla, was built by Mr J. C. Given, and was owned by Capts. C. and T Skolfield, Capt. Jos Badger, Robert Bowker, and others, and was insured in the Brunswick office for $7000, in the Bath office for $5000, and Maine office, Bath, for $2000.

The wreckers have been allowed $4000 salvage for assistance rendered to brig Andrew Peters, of Ellsworth, which vessel was taken into Nassau about Dec. 16, after having been ashore on McKies Bank, while on the passage from New York for New Orleans.

FIRE IN CAMDEN. We learn that a fire took place in Camden Village on the 21 inst. It caught in the bake-house belonging to the estate of the late Edward Bradbury, while the workmen were absent to dinner. The engine was soon put in requisition, extinguishing the flames at once. Considerable damage was done. The building was insured. There was no insurance on the stock or machinery, the loss of which falls on Mrs. Bradbury and the estate.

ACCIDENT IN THE STEAM MILL AT GRAY On Wednesday the 1st inst., a man by the name of Dutch, in attempting to adjust one of the belts in the steam mill at Gray, was caught by his clothes and cast ed round the main shaft several times, breaking his right arm in a most shocking manner, so that the bone protruded through the flesh, also injuring the left arm. Dutch is a single man and belongs in Raymond. He was attended by Drs. Anderson and Green, and is doing well.

A SPLENDID LOCOMOTIVE The Portland Company are putting the finishing touches to one of the most splendid locomotives turned out from that establishment. It is intended for the Portland District of the Grand Trunk Railroad, is about 30 tons weight—a most powerful machine, and furnished in the most substantial manner. The cost of the machine is about $11,000 This company has manufactured five of them for the Halifax (N. S.) Railroad, which are running on that road with great success in operation to locomotives imported from Scotland at a cost of $17,500 each the preference being given to the Portland machines. This is the 144th machine of the Grand Trunk Company,—and the 103d built by the Portland Company.—*Portland Argus.*

THE SUFFERING OF THE POOR.—The cold weather is sufficiently uncomfortable to the rich and well-to-do in society, then how dreadful it must be to the *poor!* Think of the miserable old hovels so many of them live in; think of the thin and ragged garments that scarcely cover their nakedness, to say nothing of imparting warmth; think of the empty larder and the lack of fuel; think of the half-starved, puny, sickly little children, crying for what their parents cannot give them. These are subjects and scenes to be remembered as you sit around your own warm fireside, and bask in the smiles of domestic joy and plenty And you, kind mother, as you wrap your little child in warm flannels and tuck up so carefully in his little trundle bed, remember the poor mother who has none of these comforts for her perishing offspring. And remember ye all what the MASTER says: "Inasmuch as you have done it unto one of the least of these, my brethren, ye have done it unto me"

IMPORTANT NEWS FROM ST DOMINGO Boston, Feb 7th. Dates of the 16th ultimo have been received here.

Emperor Soulouque's land and naval forces had been defeated at St. Marcs, with considerable loss of life.

Large reinforcements had joined Gen. Geffard, which enabled him to surround Port au Prince, and it is thought Soulouque will not be able to force an entrance into his former capital.

Little doubt is entertained that the republicans will prove entirely successful.

The news of the Japanese treaties has caused a great sensation in the whaling fleet, and it is said that from fifty to a hundred whalers will put into Japanese ports next season, to refit and obtain supplies, instead of going to Honolulu, as they have heretofore done.

SPECIAL NOTICES.

NOTICE.

I have to come before the public once more on the numbering question, to make them of my connection with Lewis Waterman, and my intentions for the future. I entered into a contract with said Waterman to furnish him with all the silver plated figures that were to be used in numbering the buildings in this city. The figures were to be as follows—two inch silver plated figures, one and a half inch brass figures, two inch brass figures, one and a half inch brass figures, and one and a half inch white metal figures The above were to be the different sizes and qualities of figures. I will state that said Waterman was to use no other figures than those manufactured by me after I notified him that I was prepared to furnish said figures. From the date of the contract to the time of my notification he was to use his own figures. After that date all the figures I have sold him is five hundred one and a half inch silver plated figures. The numbering will show any one that he is not using my figures I think it is for my interest to inform the public of the fact, and employ none one of our own citizens to go to and do the numbering who he remembers the blunders and surveying of the last better than a man from another State. I would say to the public that Mr Collamore, one of our former Street Engineers, will be connected with me in measuring the streets and numbering the houses. The public that so understands the name of the lots as well as any one, and will do the work friendship. I would say that my connection with Lewis Waterman has ceased, and I shall have Mr Collamore, in connection with the numbering. The prices of putting on the numbers will be as follows.—Two inch figures, double plate, 20 cts each, one and a half inch figures, double plate, 20 cts each, white metal figures, 8 cts each, and brass figures 10 cts each, and all sizes of number plates engraved in correspond with the size plates now in use. I can furnish citizens any quantity of figures (and they can put them on, if they choose,) at a reasonable from the number prices. J. W. COVEL

Owin, Bell, Brown and Davis repeated their sentiments upon it, which have already been expressed

The bill was then passed with some amendments, which will require it to go back to the House, by following vote—yeas 24, nays 22.

Mr Hunter then tried ineffectually to call up the civil appropriation bill.

Mr Slidell desired to take up the bill for the acquisition of Cuba. He said attention to that measure, which had been confided to his care, required that he should urge it set aside for less important business he would move that its provisions be added as an amendment to the civil and diplomatic appropriation bill

Finally he gave notice he would call up the subject to-morrow.

The Pennsylvania Avenue Horse Railroad bill then came up as unfinished business being the third day of the debate upon it. Six parties now seek the omnibus, the contest seeming to be mainly between Vanderwerken & Co, the Metropolitan Railway Co, and the city corporations of Washington and Georgetown Without coming to a vote on the bill, the Senate at a late hour adjourned.

HOUSE.—The House under suspension of the rules passed severally—the joint resolution for payment of the balance of $7000 to Georgia on account of Indian wars, the Senate bill paying Maine $6500 for expenses incurred in organizing a regiment of volunteers for the Mexican war and the Senate bill authorizing the Attorney General to act in the pending equity case between Massachusetts and Rhode Island.

The House then went into Committee of the Whole on the executive appropriation bill.

Various small items were acted on and the question of retrenchment, discussed by Grow, Davis of Ind and others, when without coming to a conclusion the Committee rose Recess till evening

HARTFORD, Feb. 7.

The democracy assembled to the number of 1500 this evening, and repudiated the proceedings of last Thursday evening. The Douglas resolutions were repudiated, the democracy not yet being ready to name a Presidential candidate. Julius L. Strong was turned out of the State delegation and W W. Eaton substituted. The meeting was enthusiastic and endorsed the administration.

THE LUXURY AND PROFIT OF HONEY MAKING.

Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling Davis' Patent Bee Hive for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive, and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with bee-keeping business to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey, are the best adapted in their use, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and in dividual rights.

For sale, fifty swarms of Bees, with the rowth etc.

For hives, individual rights, &c., address

HARPER, and Leslie's Magazine of Fashion, for Dec., rec'd by O. H. PATCH.

American Safety Paper Manufacturing Company of N. Y.

Capital $500,000.

A. Nicholas, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by Henry Glynn, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr Kent, Assayer of the U. S. Mint, Mr Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts per lb
Sight and Time Drafts—$25 for 1000 sheets
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts per lb
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb

For Indentures and Agreements, 40 cts a lb

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other, as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N J, of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No 70 Wall street, New York

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S Patent Office, Washington under the Act of 1837,)

76 State St., opposite Kilby St.,
BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works and full accounts of patents granted in the United States and Europe, render him able beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS MASON,"
Commissioner of Patents

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents
Boston, February 8 1858

Mr R H Eddy has made for me THIRTEEN applications on all but one of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGERT."

From Sept. 17th, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made on twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

COD FISH. English and French Table Fish for sale by d24 T. J. STEWART.

THE LIVER INVIGORATOR,

PREPARED BY DR. SANFORD,

Compounded entirely from Gums,

IS ONE OF THE BEST PURGATIVE AND Liver Medicines now before the public.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the causes of the disease—effecting a radical cure.

Bilious attacks are cured, and, what is better prevented, by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring prevents nightmare.

Only one dose taken at night loosens the bowels gently, and cures costiveness.

One dose taken after each meal will cure Dyspepsia.

One dose of two teaspoonfuls will always relieve Sick Headache.

Only one dose immediately relieves Cholic, while

One dose often repeated is a sure cure for Cholera Morbus, and a preventive of Cholera.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for Jaundice removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures Chronic Diarrhea in its worst forms, while Summer and Bowel Complaints yield almost to the first dose.

A few bottles will cure Dropsy by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for Fever and Ague, Chill Fever, and all Fevers of a Bilious type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.
